

BRABUS®

The product described in the instructions was developed, produced and checked considering the necessary safety requirements. In order to ensure a proper and safe function and to rule out danger for persons and objects, this product must be installed appropriately. Only trained, qualified staff, having the necessary technical experience and tools, should perform the installation. Therefore you have to read and completely understand these instructions. Check the content of the supplied parts as detailed next page prior to assembly.

Assembly:

- Remove the standard-bootfloor.

- Disassemble the plastic lugs (1) and the handle (2) of the standard bootfloor.

- Bolt the plastic lugs and the handle to the designated areas of the Brabus wooden bootfloor according to images below.

- Insert the plastic lugs to the standard assembly positions shown and fixate the retaining straps to the plastic to the plastic retaining clamps of the wooden bootfloor.

- Close the wooden bootfloor.
