# Installation instructions

Official technology-partners PIRELLI BILSTEIN Continental MOTUL YOKOHAMA ADVAN Member of VDAT

# Deutsch

The product described in the instructions was developed, produced and checked considering the necessary safety requirements.
In order to ensure a proper and safe function and to rule out danger for persons and objects, this product must be installed appropriately.
Only trained, qualified staff, having the necessary technical experience and tools, should make the installation.
Therefore you have to read and completely understand these instructions.

Check the content of the parts supplied prior to assembly.

Included in delivery:

1x Filler cap with counterplate and retaining bolt

1x Actuator incl. bracket

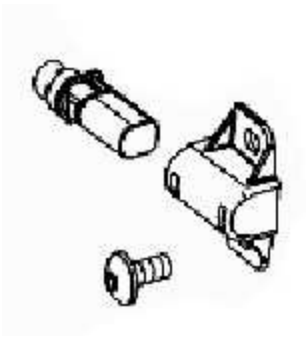

1x Assembly material

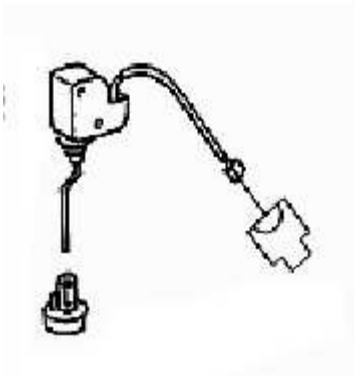

1x Plug, 2-pole

1x Rubber plug

Official technology-partners PIRELLI BILSTEIN Continental MOTUL YOKOHAMA ADVAN Member of VDN

- Remove the rear right wheelarch-liner
- Remove the inner trims of the rear right sidepanel to get access to the electrical connections of the standard filler cap locking system.
- Remove the electric motor of the standard filler cap and the bracket (shown within illustrations below).

- Hold the template supplied to the rear right sidepanel and mark the positions of the assembly holes to the sidepanel.

- Drill the holes using a suitable drill (10 mm).
- Bolt the filler cap to the sidepanel using assembly material supplied (fixate counterplate within the rear right wheelhouse).

Official technology-partners PIRELLI BILSTEIN Continental MOTUL YOKOHAMA ADVAN Member of VDA

- Route the wire for the electrical connection of the actuator supplied through the rubber plug supplied and through the hole of the standard locking latch shown below.

- Attach the rubber plug to the hole and bolt the actuator supplied to the assembly holes of the standard locking motor.

- Attach the pins of the wires to the plug supplied (take care for correct polarity) and connect the plug to the standard wiring harness.
